

PRINCE GEORGE EXPLORATION GROUP (PEG)

WHAT IS THE PRINCE GEORGE EXPLORATION GROUP (PEG)?

- The Prince George Exploration Group (PEG) is a newly created organization based in Prince George. The objective of PEG is to provide a local forum for those interested in prospecting, mineral exploration and mining. PEG will provide networking opportunities with a focus on mineral exploration and mine development. We are interested in gaining members from all aspects of the industry including hobbyists, prospectors, geoscience professionals from the private and public sectors, students of geoscience, and mining service providers. As we move forward, we will be developing a website and newsletter highlighting area ventures.

WHAT IS THE PURPOSE OF PEG?

- The purpose of PEG is to promote the interests of prospecting, mineral exploration and mining to the general public and to provide a forum for discussion amongst members interested in mineral exploration.
- We strive to further member's knowledge of mineral exploration activities and mining by offering informational lectures to members and the general public. We aim to achieve this goal by holding prospecting classes and other educational projects in connection with mining and prospecting.

TO GET MORE INFORMATION

- To get more information on PEG please contact Ken MacDonald or Tracy Savident at 250-614-7291 or via email at kmacdonald@allnorth.com or tsavident@allnorth.com.

TO JOIN THE PRINCE GEORGE EXPLORATION GROUP

- To join PEG please contact Tracy Savident at 250-614-7291 or via email at tsavident@allnorth.com
- Membership Fees are \$20.00 per year. These funds are used to promote awareness of mineral exploration and education through prospecting and mineral identification classes.
