Technical Session: Public Geoscience: Investing in Tomorrow's Discoveries

Sponsored by: Teck Resources Limited

Session Co-Chairs: Steve Rowins, BC Geological Survey; Steve Irwin, Natural Resources Canada

Time	Speaker	Affiliation	Topic
8:50 - 9:00am	Steve Rowins	BC Geological Survey	Session Introduction and Program Highlights
9:00 - 9:15am	Dave R. Heberlein	Heberlein Geoconsulting/Geoscience BC	The Use of Organic Media in the Search for Cu-Au Porphyry Mineralization in Drift Covered Areas of Central British Columbia
9:15 - 9:30am	Nigel Phillips	Mira Geoscience/Geoscience BC	Regional 3D Inversion Modelling of Airborne Gravity, Magnetic, and Electromagnetic Data in British Columbia
9:30 - 9:45am	Maurice Colpron	Yukon Geological Survey	Cretaceous Crustal Structures in Yukon and Implications for Gold Mineralization in the Northern Cordillera
9:45 - 10:00am	JoAnne Nelson	BC Geological Survey	The Sinistral Side of the Mid-Cretaceous Cordilleran Gold Story
10:00 - 10:15am	Steve Israel	Yukon Geological Survey	New Insights into the Geology and Mineral Potential of the Coast Belt, Southwest Yukon
10:15 - 10:30am	Coffee Break sponsored by Bank of Montreal		
10:30 - 10:45am	Paul Schiarizza	BC Geological Survey	Geological Framework for Volcanogenic Massive Sulphide Mineralization, Kutcho Creek, Northern British Columbia
10:45 - 11:00am	Mitch Mihalynuk	BC Geological Survey	A Final Frontier in the Golden Triangle
11:00 - 11:15am	M.B. McClenaghan	Natural Resources Canada	Indicator Mineral Signatures of Base Metal Deposits
11:15 - 11:30am	John Percival	Natural Resources Canada	Geo-mapping: Forging New Exploration Opportunities in Canada's North
