Welcome

The Association for Mineral Exploration British Columbia (AME BC) and the Roundup Organizing Committee welcomes you to the 27th annual Mineral Exploration Roundup from January 18 to 21, 2010. Once again, Roundup will bring together organizations and people representing all components of the global mineral exploration and mining sector in Vancouver, Canada.

The theme of Mineral Exploration Roundup 2010 is “Go for the Gold and Everything Else”. Mineral explorers and miners are known for their tenacity, endurance, and drive – the past year has proven to be one of challenge, and of opportunity. Roundup offers members of the global mineral exploration community many reasons to be optimistic: short courses, keynote addresses, technical sessions, and field trips. The world’s premier technical exploration conference is also renowned for its Trade Show, Core Shack, Prospectors’ Tent, and Map Tent. Our social events also celebrate our industry and are not to be missed.

Roundup offers excellent opportunities to learn, network, and meet up with competitors, colleagues, and old friends. Whether you are a dealmaker or a project manager, a geologist or a supplier, Roundup awaits you as we go for the gold and every mineral under the sun.

Thank you for joining us at Mineral Exploration Roundup and for making the conference a resounding success.

2010 Mineral Exploration Roundup Committee

An integral part of the success of Mineral Exploration Roundup can be attributed to the volunteers of the Association for Mineral Exploration BC (AME BC) Roundup Committee. The continued and combined efforts of volunteers and AME BC staff have resulted in the successful growth of Roundup to the world's premier technical mineral exploration conference.
